Hi all,

For input and review, attached and below is a draft response to a letter from American Bird Conservancy and signed by a larger group of environmental NGOs. I used the response we wrote for Senator Booker as a starting point and made adjustments based on the distinct concerns in this letter.

OGC – if you'd like to wait to review until others have provided their input, that is ok with me!
Others – if you can review/edit as needed by COB Tuesday 11/22, that would be great.

Thank you!
